

## Curriculum Vitae

First name: Donal  
Last name: Murphy-Bokern  
Address: Lindenweg 12, 49393 Lohne, Germany  
Telephone: +49 (0)4442 802190  
Mobile: 49 (0)160 92792475  
e-mail: donal(at)murphy-bokern.com  
Website: [www.murphy-bokern.com](http://www.murphy-bokern.com)  
Nationality: Irish

### PROFILE

Dr Donal Murphy-Bokern is a self-employed agricultural and environmental scientist based in Lohne, near Bremen in Germany. He specialises in the scientific support of public policy development, research strategy development, and research management in agriculture, food, bioenergy and land use.

Research completed by him and his associates since 2007 includes work on food policy and climate change mitigation for the WWF UK and the Committee on Climate Change (UK Parliament) and the UK Department for International Development, the German government, the European Commission, and the European Parliament. He was involved in two EU FP7 projects 'Legume Futures', and 'WATBIO'. He currently leads the Legumes Translated thematic network as the project's science coordinator. He also works with the European Commission on research and innovation strategy development.

The common aim of this work is excellence in the interactions between innovators, policymakers (including research policy), and research scientists. Maximising the impact of research depends on decisions made in the initiation of research programmes and how they are developed through to the use of research results after the research has ended. Donal Murphy-Bokern supports research strategy and management particularly in the areas of food systems and consumption, the development of farming systems, bioenergy systems, and nutrient cycles. He is particularly active in the development of sustainable protein sourcing and use in Europe and is the scientific advisor to Donau Soja supporting a [European Protein Transition](#).

Dr Murphy-Bokern has a broad agricultural science background extending across sector and policy boundaries and including economics and social science. This breadth is reinforced by the experience of leading a broad programme of agricultural and food research for the British government where he worked at a senior level for more than eight years in the Department of Food, Environment and Rural Affairs (Defra) in Westminster. He led a wide range of Defra's agricultural research programmes. He also worked closely with policymakers on a wide spectrum of agricultural and environmental policy areas. While in Defra, Dr Murphy-Bokern personally led a number of Defra research areas: novel crop protection products and strategies, organic farming, non-food crops and bioenergy, arable crop genetic improvement and biotechnology, crop physiology and decision support system

development, systems analysis and life-cycle assessment for developing sustainable food systems. In 2006, he established Defra's new R&D programme covering all Defra agricultural research linked to climate change policy and greenhouse gas mitigation. A number of prominent areas of change and public debate now can be traced back to research work initiated in Defra especially in sustainable food systems, public investment in plant breeding, and bioenergy.

Prior to moving to MAFF/Defra, Donal Murphy-Bokern was employed by the German Ministry of Agriculture based in the Federal Centre for Agricultural Research (FAL) at Braunschweig (1993 – 1998). He conducted research on the management of spatial variability in soil using GPS based technology (now termed 'precision-farming') in 1993 and 1994. In the period 1995 to 1998, he led a research team conducting several research projects on the use of agricultural materials in construction and the application of life-cycle assessment to agricultural systems. This was one of the first uses of life-cycle assessment in agricultural research.

Dr Murphy-Bokern moved from Ireland to the United Kingdom in 1986 to take up his first long-term appointment at the University of Newcastle upon Tyne where he managed the then newly-founded farmer-owned North of England Arable Centre (1986 – 1992). The NEAC pioneered participatory research in an academic environment and Dr Murphy-Bokern managed the development of the NEAC from a membership of 46 farmers in 1986 to 330 in 1992 - the largest such centre in the UK. He developed and delivered an agronomic information service based on a large field trials programme and research on the crop physiology of winter wheat, barley and oilseed rape. This field research focused on nitrogen fertiliser management and on predicting interactions between new cultivars and the environment of north-east England. The NEAC is now part of The Arable Group (TAG) and NIAB in the UK.

Donal Murphy-Bokern gained a doctorate in philosophy (PhD) from the University of Newcastle upon Tyne for his research in the crop physiology of winter barley conducted part-time in addition to his work managing the NEAC there.

He is a graduate of the National University of Ireland (NUI) having studied general agricultural science at University College Dublin between 1978 and 1983 (B.Agr.Sc.). He was then employed by UCD on a stipend and obtained a Master's degree from the NUI for agronomic research on cereal cultivar mixtures. As an undergraduate student, he gained a total of two years practical farm experience, mostly in Co. Carlow and Co. Meath in Ireland.

## WORK EXPERIENCE

- April 2007 – Present  
Self-employed. 49393 Lohne-Ehrendorf, Germany.  
Independent scientist supporting European research strategy and management (Framework Programme 7 and Horizon 2020), research evaluation, and assessments. Leading research and innovation with a focus on protein and the nitrogen cycle; Special Scientific Advisor to the President of Donau Soja.
- January 1999 – March 2007  
Department of Environment, Food, and Rural Affairs (Defra). Westminster, London, UK.  
Various related and overlapping roles in the direction and use of research in government including at a senior civil service level: Head of a Science Unit (1999-2006); Acting Head of Division and Farming and Food Science Co-coordinator; Programme manager for research on greenhouse gas emissions, ammonia emissions, climate change adaptation, and climate change mitigation. Responsible for a wide range of Defra and LINK R&D programmes. Provision of related input into policy working directly with senior policy makers, ministers, and the Defra Chief Scientific Advisor.
- January 1993 – December 1998  
Federal Ministry of Agriculture, Federal Agricultural Research Centre (FAL), Bundesallee 50, D 38116, Braunschweig, Germany.  
Senior scientist (Wissenschaftlicher Angestellter/Wissenschaftliche Oberrat), research team leader.  
  
January 1993 to 30 March 1995: Working on spatial variation in soil and crop resources ('precision farming'). Thereafter (April 1995 – December 1998), led a new research group specialising in supply chain assessment (LCA), industrial ecology and the role of sustainable consumption in agricultural development. The work focused on the use of agricultural materials in the building sector, particularly for insulation materials; the application of LCA to the assessment of farming systems.
- January 1986 – December 1992  
Department of Agriculture, University of Newcastle upon Tyne, NE1 7RU, UK. Research Associate responsible for developing and managing the North of England Arable Centre Ltd. (a farmer-owned, university managed research and innovation company).
- September 1985 – December 1985  
Free-lance work in various roles:  
The Irish Agricultural Development Authority (ACOT) writing video-text material; University College Dublin working on a survey of farmers' quality of life as affected by succession (inheritance) arrangements.
- Six months in 1985  
Temporary agronomist in a pesticide and seeds retail business in Ireland.
- 1978 – 1983  
Farm experience – a total of two years experience on five farms in Ireland, mostly in Co. Carlow and Co. Meath.

#### EDUCATION AND TRAINING

Bachelor of Agricultural Science	1978 – 1983. National University of Ireland, University College, Dublin 4. Basic and agricultural/environmental sciences; economics, social science, agricultural policy.
Master of Agricultural Science	1983 – 1984. National University of Ireland, University College, Dublin 4. By research - the thesis is entitled 'An investigation into the merits of the use of cultivar mixtures under Irish conditions'.
Degree of Doctor of Philosophy (PhD)	October 1987 – December 1992. University of Newcastle upon Tyne. Based on a part-time study conducted under University staff regulations. The thesis is entitled 'Crop structure and crop productivity in winter barley, ( <i>Hordeum sativum</i> )'.
UK Civil Service	UK civil senior service programmes in leadership and management.

#### LANGUAGES

English: Native speaker  
German: Fluent.

#### MEMBERSHIPS

Fellow of the British Society of Soil Science  
German Agricultural Society (DLG)

MAJOR PROJECTS AND ASSIGNMENTS (AS SELF EMPLOYED, 2007 TO PRESENT)

- 2007-2008 WWF UK  
[Environmental impacts of the UK food economy with particular reference to WWF Priority Places and the North-east Atlantic](#)
- 2008-2009 WWF UK and the FCRN  
[An assessment of greenhouse gas emissions from the UK food system and the scope for reduction by 2050](#). How low can we go? (with Cranfield University).
- 2009 [The environmental performance of native grassland-based livestock production systems](#). A study conducted for the Department for International Development (DFID), UK.
- 2009-2010 The Committee on Climate Change (UK Government)  
[The effect of changes in UK food consumption on land requirements and greenhouse gas emissions](#). (with Cranfield University).
- 2010-2011 European Commission  
[Impacts of EU Framework Programmes \(2000-2010\) and prospects for research and innovation in agriculture](#), animal health and welfare, and forestry (as Group Chairman and lead author, with eight other scientists).
- 2011-2012 Bundesministerium für Ernährung, Landwirtschaft und Verbraucherschutz (BMELV).  
Evaluation of the German Federal Research Programme on Organic Agriculture. (with Interval GmbH, the Organic Research Centre, and Applied University Eberswalde (<http://orgprints.org/22369/> )
- 2011-2012 The European Commission  
[The resource use efficiency of the European food cycle. Report for the European Commission](#). With BIOIS (Paris).
- 2013 The European Parliament  
[The environmental role of protein crops in the new common agricultural policy](#).
- 2010 - 2014 The European Commission  
Legume Futures ([www.legumefutures.eu](http://www.legumefutures.eu) ). Leader of work package 5 (Impact)
- 2012-2017 The European Commission  
WATBIO ([www.watbio.eu](http://www.watbio.eu)) . Leader of work package 6 (Impact)
- 2012-2013 The European Parliament  
[The environmental role of protein crops in the new Common Agricultural Policy](#).
- 2013-2014 Institute for Food Policy Research, Washington (IFPRI). [The impact of corporate responsibility strategies on greenhouse gas emissions from food chains](#)
- 2013-2014 European Innovation Partnership for Agriculture. Member of the Focus Group on Protein Crops

- 2014 The European Commission  
Ex-post evaluation of agricultural, forestry, animal health and welfare research in FP7. Evaluation Group Chairman and Rapporteur.
- 2014 The European Commission  
Over-view report for the ex-post evaluation of Knowledge-based Bioeconomy Research. Report coordinator. [Report to be presented to the European Parliament.](#)
- 2016-2017 The European Commission  
Agriculture expert in the interim evaluation of research for Societal Challenge 2 in Horizon 2020.
- 2015 onwards Chinese-European Legume Improvement Alliance. Scientific advisor to this initiative established by the Donau Soja Association (Vienna).
- 2016 onwards Chief Scientific Advisor to the President of Donau Soja.
- 2017 The European Commission  
Chairman of a special expert group assessing how Societal Challenge 2 has been addressed in framework programmes since 1998. Meeting Societal Challenge 2.
- 2018 - 2021 Legumes Translated. Scientific Coordinator.

## REPORTS AND PUBLICATIONS

### REFEREED JOURNAL PUBLICATIONS, MONOGRAPHS

Murphy, D.P.L., Knight, S. and Evans, E.J. (1992).

Spikelet sterility and grain yield in five cultivars of winter wheat (*Triticum aestivum*). Tests of Agrochemicals and Cultivars 13: 132-133. Supplement to Annals of Applied Biology.

Murphy, D.P.L., Dahab, M.H., Hossain, S., Wyseure, G.C.L. and O'Callaghan, J.R. (1994).

The simulation of the effects of shading on the growth and yield of winter barley (*Hordeum sativum*). Computers in Agriculture 10:169-174.

Haneklaus, S., Murphy, D.P.L., Novak, G. and Schnug, E. (1994).

Effects of the timing of sulphur application on grain yield and yield components of wheat. Journal for Soil Science and Plant Nutrition 158:83-85.

Thylen, L. and Murphy, D.P.L. (1996).

The control of errors in momentary yield data from combine harvesters. Journal of Agricultural Engineering Research 64: 271-278.

Murphy, D.P.L., Behring, H., und Jäger, Ch. (Editors) (1999). Perspektiven für Dämmstoffen aus heimischen nachwachsenden Rohstoffen (Prospects for insulation materials as industrial crop products). Landbauforschung Völkenrode (Refereed monograph 272pp). ISBN 3-933140-25-0.

Murphy, D.P.L., Roever, M. and Heinemeyer, O. (Editors) (1998). Bewertung der Verfahren der ökologischen und konventionellen landwirtschaftlichen Produktion im Hinblick auf den Energieeinsatz und bestimmte Schadgasemissionen. Evaluation of the conventional and organic agricultural production in terms of primary energy consumption and pollution gas emissions. Landbauforschung Völkenrode ISBN 3-933140-33-1(Refereed monograph, 206pp).

## CONSULTATION RESPONSES

Murphy-Bokern, D. (2008). Response to consultation informing the Royal Society study on biological approaches to enhance food-crop production ([www.murphy-bokern.com](http://www.murphy-bokern.com) )

Murphy-Bokern, D. (2009). Response to the FSA's review of its advice on fish consumption. ([www.murphy-bokern.com](http://www.murphy-bokern.com) )

Murphy-Bokern, D. (2009). Written evidence to the House of Commons Select Committee on Environment, Transport and Rural Affairs. Securing food supplies up to 2050: the challenges faced by the UK.

[www.publications.parliament.uk/pa/cm200809/cmselect/cmenvfru/213/213we72.htm](http://www.publications.parliament.uk/pa/cm200809/cmselect/cmenvfru/213/213we72.htm)

Murphy-Bokern, D. (2010) Response to the BECOTEPS consultation on the BECOTEPS White Paper 'Towards a European bioeconomy that delivers sustainable growth by addressing the grand societal challenges (BECOTEPS) (on behalf of Legume Futures)

Rees, R. and Murphy-Bokern, D (2010). Response to consultation on the 3<sup>rd</sup> SCAR Foresight Report. (on behalf of Legume Futures).

Murphy-Bokern, D. (2011). Legume Futures response to the European Commission consultation on the bio-based economy for Europe: state of play and future potential. (on behalf of Legume Futures)

Annex 2

**LECTURES AND PUBLIC PRESENTATIONS**  
(not including talks made for Defra (1999-2007))

Mechanised management of local resources in agriculture. Annual meeting of the Institute of Agricultural Engineers, May 1992, Silsoe, Bedfordshire.

Applications of Geotechnics and Geostatistics in Agriculture. Geotechnica. Internationale Fachmesse und Kongreß für Geowissenschaften und Geotechnik. Köln, May 5, 1993.

Impact of sulphur supply on the baking quality of wheat. Association of Applied Biology Conference: Cereal Quality III, Churchill College, Cambridge, December 15, 1993.

Equifertiles - an innovative concept for efficient sampling in the local resource management of agricultural soils. Sampling to make decisions. Association of Applied Biologists, Churchill College, Cambridge, March 21, 1994

Yield mapping - a guide to improved techniques and strategies. International Conference on Site-Specific Management for Agricultural Systems. Second International Conference on Site-specific Management for Agricultural Systems. American society of Agronomy, Minneapolis, March 27, 1994.

A boundary line determination technique (BOLIDES). International Conference on Site-Specific Management for Agricultural Systems. Second International Conference on Site-Specific Management for agricultural Systems. American Society of Agronomy Minneapolis, March 30, 1994

Lokales Ressourcenmanagement - Ergebnisse und Ausblick (Local resource management - results and outlook). Conference organised by the Kuratorium für Technik und Bauwesen in der Landschaft. Institut für Agratechnik Bornim, Potsdam, Germany. April 14, 1994.

The environmental challenge - a threat or an opportunity for Irish farmers. Address to the Irish Tillage and Land Use Society at Braunschweig, June 15, 1994.

Impacts of unification and CAP reform in East Germany. Meeting of the Association of Applied Biologists on CAP reform, Cambridge, December 12, 1994.

Studies of the growth and yield of *Miscanthus x giganteus* in Germany. Meeting of the Association of Applied Biologists on CAP reform, Cambridge, December 14, 1994.

Hanf Fasern im Bauwesen (Hemp fibres in buildings). Tagung Gesellschaft der Freunden der FAL. (Conference of the Society of the Friends of the FAL). Forum der FAL, Braunschweig, March 21, 1996.

Nachwachsende Rohstoffe als Baustoffe (Industrial crop materials in buildings). Tagung zur Ausstellung „Zukunftsprodukte aus nachwachsenden Rohstoffen (Conference associated with the exhibition 'Future industrial crop products'. TAT Transferzentrum für Angepasste Technologien GmbH. Rheine, Oktober 9, 1996.

Biomass for materials and energy - setting priorities for the use of limited resources. Association of Applied Biology biomass and energy conference. Royal Agricultural College, Cirencester, England. April 8, 1997.

Hanf im Bauwesen (Building with hemp). Hanftag am 28.8.1997 im Haus Düsse. Landwirtschaftskammer Westfalen-Lippe.

Produktionsoptionen (Production options). Workshop organised to discuss the results of the project 'Perspektiven von Dämmstoffen aus nachwachsenden Rohstoffen' (Prospects for insulation materials from industrial crop products). Bundesforschungsanstalt für Landwirtschaft Braunschweig-Völkenrode, March 16 - 17, 1998.

Eignung biogener Fasern für die Wärmedämmung. Markt Innovation HANF Symposium. nova-Institut Hürth, and Faserinstitut Uni. Bremen (FIBRE) funded by European Social Funds. Bremen. December 9, 1998.

Dämmstoffe aus Hanf- und Flachsfasern: Konkurrenzsituation zu Agrar-Sekundärrohstoffen. Markt Innovation HANF Symposium. nova-Institut Hürth and TAT Transferzentrum für angepasste Technologie GmbH funded by European Social Funds. Rheine, December 9, 1998.

Poultry production – a life-cycle approach to appraisal and development. British Poultry Council Annual Meeting, Westminster London, 1 May, 2007. [www.poultry.uk.com](http://www.poultry.uk.com)

From research results to policy outcomes: delivering a return on public investment in research. Thoughts on public sector research management and 'bridging the gap'. Presentation to the 4th 'Bridging the Gap' conference on 15 May 2008 in Slovenia. [www.murphy.bokern.com](http://www.murphy.bokern.com)

Global environmental challenges and the poultry sector. Presentation to the World Poultry 2009 Conference. 14 May London. [www.murphy.bokern.com](http://www.murphy.bokern.com) .

An assessment of greenhouse gas emissions from the UK food system and the scope for reduction by 2050. How low can we go? Presentation to a special meeting of the UK Food and Climate Change Network and WWF UK. 22 June, 2009. Unilever House, London

Biogas und Klima. Presentation to citizens of Damme in Germany. 19 January 2010.

Impacts of EU Framework Programmes (2000-2010) and prospects for research and innovation in agriculture, animal health and welfare, and forestry. Unpublished report to the European Commission. Summary presentation available at [www.murphy-bokern.com](http://www.murphy-bokern.com) March 7, 2011.

The environmental implications of food choices. Institute of Mechanical Engineers Conference. Future Climate 2. The Challenge Continues. September 2011.

The agri-environmental implications of food choices. Abstracts of ESA12, the 12th Congress of the European Society for Agronomy, 24 August 2012, Helsinki, Finland.

The environmental role of protein crops in the new Common Agricultural Policy. Presentation to the Agriculture and Rural Development Committee (COMAGRI) of the European Parliament, 25 May 2013. (with Prof. Christine Watson)

The environmental role of protein crops in the new Common Agricultural Policy. Danube Soya and the European Protein Debate. Danube Soya. 26 November, 2013. Augsburg Germany.

The environmental effects of protein crops: implications for policy. Protein autonomy and farm-based biogas production. 13<sup>th</sup> conference on pig and poultry production. Centre Wallon de Recherches Agronomiques (CRA-W). ISBN 978-2-87286-085-2. Namur, 27 November, 2013.

Biogas und Klima. Presentation to citizens of LK Friesland in Germany. April 2014

Current policy approach for bioenergy: a tale of three countries. 27 November, 2014. Aberystwyth, Wales at the 'Miscanthus Safari' event.

Murphy-Bokern, D. and Kuhlmann, T. 2015. Protein policy in Europe. Danube Soya East West Protein Forum. Berlin, 7 May 2015. <http://www.donausoja.org/>

Murphy-Bokern, D. (2015). Pointers for bioenergy policy in a resource-constrained world.

Murphy-Bokern, D. (2017). Meeting Societal Challenge 2. Evolution of approaches to impact from Framework Programme 5 to Horizon 2020. Presentation to the Columbus project annual stakeholder meeting. 7 November 2017. Brussels.

Murphy-Bokern, D. (2017). Meeting Societal Challenge 2. Presentation to the Societal Challenge 2 Management Committee of the European Union. 1 February 2018. Hosted by the European Commission in Brussels.

Murphy-Bokern, D. 2018. Donau Soja Congress 2018 – [Donau Soja Protein Strategy](#) for Europe. Lead author of the strategy.

European Innovation Partnership Summit June 2019 – Legumes Translated. Lisieux, France

Murphy-Bokern, D. et al, (2019) European Conference on Crop Diversity Budapest 2019. Legumes Translated.

Murphy-Bokern, D. et al, (2019) European Conference on Crop Diversity Budapest 2019. Legumes Translated at the European Conference on Crop Diversification. Documented [contribution to the closing panel](#).

Murphy-Bokern, D. (2019). [Why is protein important ?](#) [www.legumestranslated.eu/post/why-is-protein-important-a-european-protein-transition](http://www.legumestranslated.eu/post/why-is-protein-important-a-european-protein-transition). AGES Vienna. 24 October 2019

Horizon Europe, der Brexit und die Auswirkungen auf Niedersachsen. NBank European Innovators Jahresnetzwerktreffen 21.11.2019

Annex 3

**INDICATORS OF TRUST AND ESTEEM (since 1999)**

For the period 1999 to 2007, these activities were in addition to *ex-officio* duties in Defra

2000 – 2005

Member of the Editorial Board of the Journal of Agronomy and Crop Science.

2001

General Secretary to the evaluation of Defra's largest science agency (CSL).

2002

On the invitation of the Chief Scientific Advisor in the Department of Agriculture in Northern Ireland represented Defra at a meeting of the Northern Ireland and Republic of Ireland officials who deal with pesticide safety – Carlingford in the Republic of Ireland.

2002 - 2005

Invited member of the British Crop Protection Council Strategy Committee.

2002 – 2005

Member of the DTI's Biotechnology (Agri-business) Group – a government/research/industry policy forum.

2005

Invited member of the Institute for Grassland and Environment Research (IGER) Research Institute Evaluation Group. (BBSRC Institute Quinquennial Review)

2005

Invited member of the Rothamsted Research Institute Evaluation Group. (BBSRC Institute Quinquennial Review)

2005

Invited to give evidence to the German Science Council's study of the future of agricultural science in Germany.

2004 – 2006

Member of the BBSRC Crop Science Review Panel (The 'Gilligan Review')

2005

Invited by OECD to participate in the meeting on 'Opportunities and Challenges in Agri-Food Research (Rome).

2004 – 2006

Defra 'assessor' on the UK Farming and Food Research Priorities Group.

2006-2007

Community Governor to Coombe Hill Infants School, Kingston on Thames.

2007

Invited by the OECD to participate in the meeting on bioenergy policy (Umea, Sweden).

2007-2008

Advisor to the Scottish Executive Environment and Rural Affairs Department in relation to the interim evaluation of the SEERAD Research Programmes.

2008

Invited to join a Scottish-based research group looking at optimizing the use of legumes in farming systems ([www.legumefutures.de](http://www.legumefutures.de))

2009

Invited by the Nova Institut to join an advisory committee advising the German government on strategies to develop the non-food use of crops.

2010

Invited to chair the European Commission's expert panel assessing the impact of agricultural, animal health and welfare, and forestry research in the Framework Programmes 5, 6 and 7 (FP5, FP6, FP7).

2011

Invited by the German Agricultural Research Alliance (DAFA) to play a leading role in the formulation of a strategy for research on legume-based cropping systems and supply chains.

2011

Invited to join the European Commission-led delegation to Yangling in China to explore possibilities for collaboration between China and EU.

2011

Invited to join the FCRN/WSPA/CAAS delegation to Beijing to promote dialogue with and within China about the relationship between food consumption change and sustainable development.

2011 – 2012

Member of the organizing committee for the 12<sup>th</sup> Congress of the European Society of Agronomy.

2012

Invited by the UNEP to review and revise a report on the effect of environmental degradation on the agricultural production base. The report is called 'Avoiding future famines'.

2013

Invited by the European Innovation Partnership in agriculture to join the Expert Focus Group on protein crops.

2014

Invited by the European Commission to chair the ex-post evaluation of research for agriculture, forestry, plant and animal health in the Framework Programme 7. Later asked to lead the preparation of the final report for the European Parliament of the evaluation of the KBBE programme.

2015

Member of the organising committee for the Biomass2015 conference in Hohenheim ([www.biomass2015.eu](http://www.biomass2015.eu)).

2011 to present

Served as external expert to the European Commission assessing research proposals.

2015 – 2016

Invited member of the European Commission Expert Panel for the interim evaluation of research in Horizon 2020 Societal Challenge 2 (Agriculture, food, fisheries and the bioeconomy).

2014 to 2018

Member of the Scientific Advisory Board of Danube Soya.

2017

Invited to chair the European Commission Expert Panel for the interim evaluation of research in Horizon 2020 Societal Challenge 2 (Agriculture, food, fisheries and the bioeconomy) to conduct a study 'Meeting Societal Challenge 2'.

2012 – present

Advisor to the European Commission – project evaluations.

2018-present

Special scientific advisor to the president of Donau Soja.

2015 to present

Elected deputy-chairman of the nature protection group (NABU group) in Lohne.

2016 to present

Elected special scientific advisor to the board of the NABU Kreisgruppe Vechta (County-level agricultural expert).

2016 to present

Special scientific advisor to the President of Donau Soja (Danube Soya).

2017 to present

Member of the Expert Group advising the Landkreis Vechta (Vechta Regional Council) on monitoring the quality of ground water (voluntary scientific work).

2018 – present

Scientific coordinator of the Legumes Translated consortium.
